WE'RE FOR AMERICASAMERICANS

THE Hon. Jo. C. S. BLACKBURN thinks he thinks he is still alive and a candidate for United States Senator.

Ir takes only 7,555 votes in South Carolina to count one Electoral vote for BRYAN, but it takes over 40,000 in Cincinnati to count one for McKINLEY.

SENATOR SURRMAN makes a flat denial of the reports of a deal between himself and MARK HANNA as to the Ohio Senstorship and a Cabinet portfolio under McKINLEY.

SOME plous Free-silver person ought to intercede with the good LORD and have the advance in the price of wheat stopped. It's playing smash with things generally, and brands BRYAN and his "ites" a gang of magnificent liars in particular.

EDITOR HENRY WATTERSON thinks the Bryan Democrats will be swallowed up by the Populists. We always knew the Pops could stomach 'most anything; but isn't this a rather strong dose for even that big-bellied body.

In the language of DAVE HECHINGER "the Free-silver craze is dying out !" The Richmond Register, which in the late campaign advocated BRYAN'S 50 cent dollars, has changed owners and will now become a Sound Money champion with Colonel FRENCH TIPTON

THE Cincinnati Enquirer, which advocated the election of BRYAN and the introduction of a 50-cent silver dollar as the means of saving the country and making business good, now sings a different song. It said before the election that prosperity would never come under the gold standard. In its issue of November 20th it says:

"Revival seems to be in the air. There is more thriving commotion in business circles, a better demand for goods, greater inquiry for investments, less timidity in capital, more disposition to make money earn something, instead of lying idle and furnishing its owners no comfort except to look at."

HI, THERE!

WILLIAM JENNINGS BRYAN!

Your Popocratic arguments are al being knocked belwest and crooked.

Wheat sold Saturday at \$1 a bushel. You said the fall in the price of mill, silver was the cause of the low price of wheat, when the latter was selling at 60 cents a bushel and silver was worth 66 cents an ounce.

If that is true, will you please tell us why silver doesn't now advance lu price? Wheat has gone to \$1 but silver remains about the same.

Now, Windy WILLIE, take your time; draw a good long breath, and tell us dale Steel and Iron Company, Middlewhat you know-or don't know-about the present condition of wheat and silver.

TO CUBE A COLD IN ONE DAY

It is stated that the British Government will endow a Catholic University in Ireland with \$5,000,000.

Secretary Olney has ordered an investigation of the reported arrest of an Amerloan newspaper man by the Spanish authorities in Cuba.

Suit was begun in the United States Court at Grand Rapids, Mich., to foreclose a mortgage for \$480,000 on the indi-Haute and Logansport Bailroad.

Dublic Ceoger THE LEDGER'S PROPHESIES FULFILLED.

McKinley's Election Has Restored Confidence and Given a Big Boom to Business.

"Advance Agent of Prosperity."

THE LEDGER was insistent throughout the late campaign that the election of McKinley meant the restoration of Confidence and the immediate resumption of Manufacturing and Commercial Business throughout the country.

There were those who contended that the very opposite would be the case.

It is useless now to argue the question; it is settled by the results; -and that our readers may see who was right THE LEDGER will give, from day to day, a partial list of the industries that are reviving under the assurance that the incoming Administration will be friendly to American interests.

ip Monday with 200 hands.

The Kimberly Mills at Sharon, O., will men soon resume operations. These mills are

The Consolidated Steel and Wire Company at Braddock Pa., has started its works in full, employing 800 men.

The Union Iron and Steel Company and Brownsville Iron Company of Youngstown have started up all their puddling furnaces, giving employment to hundreds of idle workers.

The United States Seamless Tube Com pany has been organized by Pittsburgh and McKeesport capitalists, who wil erect a plant at McKeesport for the manufacture of seamless tubing.

The Lalance & Grosjean Manufactur ing Company, Harrisburg, Pa., expect to have their charcoal forge and puddling department in operation shortly. The remainder of their plant is running to its full capacity. Seven new tinning stacks have been completed and preparations are under way for installing a fourth tir

Owing to the large increase in orders received at the Newport Rolling Mill since the recent election, work will be given to about 65 additional men in the course of a few weeks. This will be ple s ug news to the mill men in the city, a great many having been out of employment for some months.

George Laughlin. President of the Irontown, Ind . states that they have just alded two additional mills to their tin plate plant, and are now operating with terne plate exclusively.

The Automatic Electric Pump Com- and fireproof buildings. puny of Boston will at once erect a twostory factory 150 feet long by 36 feet wide, and a brick boiler house 24 by 30 Company near Beaver Falls, Pa , will be feet. Several smaller buildings will be completed by January 1st. The process included in the plant for the manufacture of the company involves the rolling of of brass and iron fittings. The new plant axies, instead of forgless them, a bloom of will give employment to 195 bands, and nine inch square section making three ana and Lake Michigan and the Terre will be ready for occupancy about Jane- axise. The round from it then reheated

The Owensboro Woolen Mills started ' The Bridgeport Stove Works, Bridgeport, Ala . has completed a 51 by 72 feet foundry annex, giving place to 20 more pounds or more.

> Gu man & Co , Chicago, Ill., will erect a plant to manufacture machinery. All latest lathes, drills, engine pumps, etc.,

> The plate mill of the Republic Iron Works, Pittsburgh, is being rebuilt, and other extensive improvements are being added to the plant.

> A new casting house is being built at the Lebanon Valley Furnace at Lebanon, the old structure having been destroyed in the big storm in September.

> Preparations have been made to resume work at the Troy (N.Y.) Steel Company's plant. There are orders enough shead to keep the plant going for some

> The General Electric Company is arranging to extend its plant at Schenectady, N. Y. It has let a contract for a brick building 296 by 100 feet. Specifications are being drawn, it is stated, for still another building, 196 by 100.

The Bosquet Bros., manufacturers of the Bosquet Vacuum Pump, and general machinists of Fall River, Mass., will build a new shop, put in new engine and beilers and all new tools. The shop will be 200 by 52 feet, and 24 stories high.

The reconstruction of the Consolidated Steel and Wire Company's plant at St. Louis is being pushed, the nall mill being nearly completed. The nail, netting and bale tie departments will be ready December 1st, and the balance January 1st.

An addition to the plant of the Youngea force of about 400 hands. The plant of town Iron and Steel Roofing Company, the company is tunning upon the pro- Youngstown, O, has been equipped with Take lagative Bromo Quinine Tablets. All drug-duction of bright charges coke and tools of late design. The company has gists refund the money if it falls to cure. 25c. recently brought out a patent trough floor, adapted to use in highway bridges Iron Fencing of Any | Greating and Weather

The new plant of the Keystone Axle for shaping to the axle machine.

TITIES THANKSGIVING.

Some Idea of the Number of Turkeys That Furnished Food For the American People.

The American habit of eating turkeys on Thanksgiving Day has grown to such proportions that a general idea of the number consumed throughout the country on last Thursday may be gleaned from some figures supplied by the arithmetic man of The Commercial Tribune.

Every American family which could afford it, or which lives in a district where a turkey was obtainable, had one upon the dinner table.

The number of people in the country is at least 70,000,000, and at a conservative estimate half that number, or 35,000,000, participated in a Thanksgiving turkey dinner.

The average number of persons to a family is about five, and on the basis of that ratio the 35,000,000 people who ate turkey consisted of 7,000,000 families, each of which had a turkey.

In order to keep within the bounds of conservatism, however, let it be considered that only 6,000,000 families had a turkey spiece.

In the Eastern and Central States there is no doubt that three or four families out of every five had turkey

In the West and Southwest, however the relative proportion of turkey dinners was not so great, and the Indians, of course, and many families of foreign birth, did not celebrate the day by de molishing a fowl.

A great many of the turkeys placed on the tables weighed twenty or twenty five pounds, and a smaller proportion would have tipped the scale at thirty

An average weight of fifteen pounds to each bird is a fair estimate.

At that rate per bird, the 6,000,000 turkeys served for the National dinner weighed 90,000,000 pounds, not to mention the stuffing

Of course some of the 90,000,000 pounds were bones, and some was left over until next day, to be served cold, but the country undoubtedly sat down to 90,000,000 pounds of turkey.

The price of the turkeys per pound differed according to condition and local ity, but it was about eight cents On that basis, the 90,000,000 pounds of tur key cost the country \$7,200,000

It was an expensive meal, without considering the incidentals in the way of celery, doctor's bills, oysters and other things; but the turkey Thanksgiving din ner is a National institution, and must be enjoyed, no matter what it costs
